**INTRODUCTION AND CONSENT**

Good morning/afternoon/evening. My name is \_\_\_\_\_. I am here on behalf of Practical Sampling International, a Research Agency, in Nigeria. I am here to learn about how people in this neighbourhood feel about some important social issues and current affairs and also to understand people's media habits and needs. We would like to talk to you and other people in your neighbourhood about these issues. You were chosen by chance (like picking a mango out of a basket without looking), and your help in answering our questions is important and voluntary.

If you agree to take part, I will ask you questions about your media habits and your opinion about some social and political issues. The information will be used to improve radio/TV programmes. There are no right or wrong answers to these questions; I am only interested in your own view or experiences.

Your identity and responses will be kept confidential, which means we will remove anything that could identify you as taking part in this study, such as names and villages. Your answers to my questions will be combined with answers from many other people, so that no one will know that the answers you give me today belong to you. There is no direct benefit to you for participating, but the answers that you provide will help to develop better radio/TV programmes for people in this and other communities in Nigeria. The combined information that we collect from people in Nigeria will be shared and used to improve social issues in your community.

You can decide not to answer any question that you do not want to, you can stop the interview at any time without explanation, or you can request that your answers are removed from the research at any time. You will not be penalized if you decide not to participate.

**The interview will take about [60 minutes].**
